

Live and Learn Internship

Gain valuable hands-on research and farm operation experience while building a strong network and skillset.

The East Tennessee AgResearch and Education Center serves as a field laboratory of nearly 2,000 acres providing experimental plots, lands, livestock, orchards, equipment, and other types of support for research programs developed by AgResearch scientists.

Near-Campus Housing

We provide rent-free on-farm housing to those in our program

Bi-Weekly Payment

Opportunities for additional part-time work to earn income

Education and Experience

Experience across many areas of agriculture and research management
